HELPING HEROES MOVE

June 28, 2011

Federal Communications Commission Chairman Genachowski 445 12th Street SW Washington, DC 20554

Dear Chairman Genachowski,

As President and Founder of Operation Second Chance, a nonprofit 501 C 3 that assists wounded, injured and ill service members, I have had the opportunity to work with and get to know Reese Butler. We share the same passion, commitment and dedication to those that suffer silently. Last summer we worked closely in planning and presenting a press conference on Capitol Hill regarding the plight of veterans and the epidemic rates of suicide.

I have faith that Reese and the Hope Center will always place the needs of veterans above their own and will continue to improve the delivery of service to those in need. I also have faith and confidence in his ability to run and manage the Hopeline Network.

Lastly, I strongly support the FCC returning the toll free numbers 800-SUICIDE, 888-SUICIDE and 877-SUICIDA to the Kristin Brooks Hope Center. If you have any questions, please do not hesitate to contact me at 301,938,2834.

With kindest regards I am,

Respectfully yours,

Cindy muther

President and Founder - Operation Second Chance
